# FARRER REDEVELOPMENT NEWS

GOODWIN  
THE BETTER LIFE CHOICE

JUNE 2018 EDITION

## JUNE CONSTRUCTION UPDATE

During June the construction works continued to focus on completing tasks internally with external facades (brickwork and hebel) at varying stages on Buildings A and B.

The walls and ceilings in the apartments have been completed allowing the initial painting sealer coats to be applied. Brickwork and hebel were predominantly completed during the month allowing render to start.

The roofing to Building B has been completed allowing the internal and external framing of Level 3 penthouse apartments to commence. Apartments on the lower levels have been sheeted with plastering commenced. Brickwork and hebel cladding has commenced to the building elevations.

The framing of internal and external walls and services rough-in has been predominantly completed up to Level 3, Building C eastern zone. The Level 1 suspended slab has been poured and the associated precast panels installed to Building C western zone.

## JULY ACTIVITIES

- Commence installation of joinery units in Building A
- Continue installation of brickwork and hebel cladding to Building B.
- Commence sheeting of apartments in Building C.
- Form, reinforce, stress and pour Building C, Levels 2 & 3.
- Continue with stone work installation to ground level area adjacent entry road.
- Continue with bus shelter relocation works on Beasley Street.
