FARRER REDEVELOPMENT NEWS

GOODWIN
THE BETTER LIFE CHOICE

JULY 2018 EDITION

JULY CONSTRUCTION UPDATE

Internal trades have continued to progress throughout both Buildings A and B. Painting and joinery unit installation is at varying stages in each building.

The structure for Building C is nearing completion and expected to be finalised during the month of August. This will allow the internal trades to commence in the western zone of the building.

The external façades are nearing completion on Building A to allow the removal of scaffold and commencement of landscape works.

The bus shelter and associated footpaths, line marking has been completed.

AUGUST ACTIVITIES

- Commence removal of scaffold to elevations of Building A.
- Complete sheeting of Level 3, Building B.
- Commence joinery installation in Building B.
- Form, reinforce, stress and pour Building C, Level 4 and miscellaneous remaining structures.
- Continue with stone work installation to ground level area adjacent entry road.
- Commence preliminary landscape works.
